

Tamworth Intermodal Rail Line

The NSW Government is reactivating five kilometres of non-operational rail line between West Tamworth and Westdale. Reactivation of the rail line will allow rail access to the Tamworth Regional Freight Terminal to be located near Goddards Lane. The project is funded by the Restart NSW Fund.

Main construction works started in January 2021, and is scheduled to finish in late 2021.

Upcoming work

Work will continue in February and includes:

- Confirming geotechnical investigations
- Installing low-lying bridges
- Constructing new culverts
- Connecting mains power to signal huts on Gunnedah Road, Dampier Street and Evans Street
- Completing protection slab for underground utilities.

Equipment to be used includes excavators, graders, smooth drum rollers, franna cranes and bogie tippers.

Hours of work

Construction will be carried out **Monday to Friday from 7am to 6pm** and **Saturday from 8am to 1pm**. Community and businesses impacted by the work will be notified if work needs to occur outside of these hours, including night work.

Traffic and access changes

Access to private residences and businesses will be maintained. Any changes to access or traffic will be communicated to stakeholders and traffic and pedestrian controls will be put in place, as required.

Contact

To help us get in touch with you, we invite you to register your preferred contact details with our Community Relations Team. Head to **www.surveymonkey.com/r/TIRL**

If you have any questions or would like more information on the project, please contact our Community Relations Team on **1300 661 390** or email crn.enquiry@jhq.com.au
