Dear officer,

At the community park in Woolomin I would like to have a zip line made from a rope and a seat. And there could be stairs to go up and then you stop yourself into a smooth seat that you could go from one fort to another.

And I also would like to have net swing that would be made out of rope and soft net for the seat and rope to tie it together. If possible I would like a merry go round that when you want to hop on to it you can hop on a seat and you can spin around on it and I would like a slide too please.

I would like to say a big thankyou too you for building a park for all of us and it will be helpful for all the kids in Woolomin.

Dear Officer,

At the community park in Woolomin I would like to have a bike rack, trees, bubblers to drink from , a big slide, a flying fox or monorail, zip line and a swing set.

In the park I would like to see lots of trees, plants, shade shelters, seating, a bike rack and things that can help the environment.

If you can build this playground it would make Woolomin safer as some kids are playing on the road and having nothing to do. This park will give kids a chance to play and not have to go into town to the Tamworth Regional Playground.

Dear Officer,

At the community park in Woolomin I would like a big slide made by a tarp and pillows.

We would like some metal bubblers in case it gets hot and I would like to see some shade with some tables and we would like to see a flower garden and some play equipment also a zip line and a flying fox. I would like to see a sandpit.

A park in Woolomin would make me very happy because it would give me a place to go to calm down and stuff.

Thank you and your hard work is appreciated.

Dear Officer,

At the community park in Woolomin I would like to have a big swing and a bike rack and a bubbler and some seats and a lunch bar.

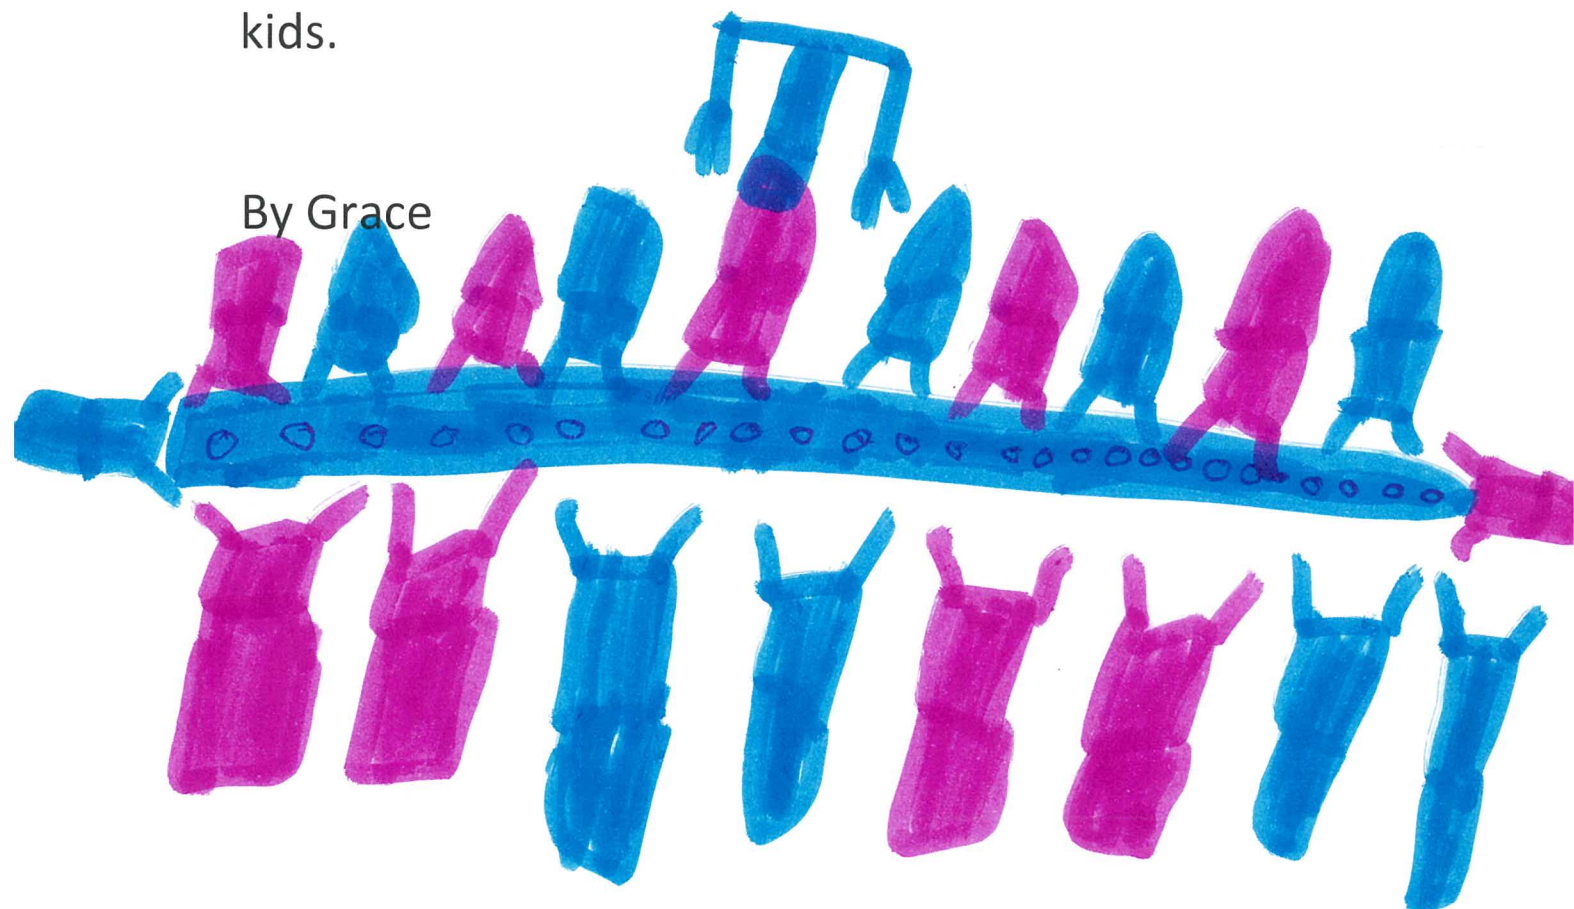

I would like to see a sand pit and a

Fairy floss fountain and apple and mango

Trees and a garden.

Thank you for building a park in Woolomin for us kids.

Dear Council Officer,

At the community park in Woolomin I would like a Beyblade stadium made from smooth material and a zipline.

Some shade shelters would stop the equipment getting hot. Bubblers would help too.

Thank you for building the park so us kids don't have to go to town.

From Tyler Tuckwell

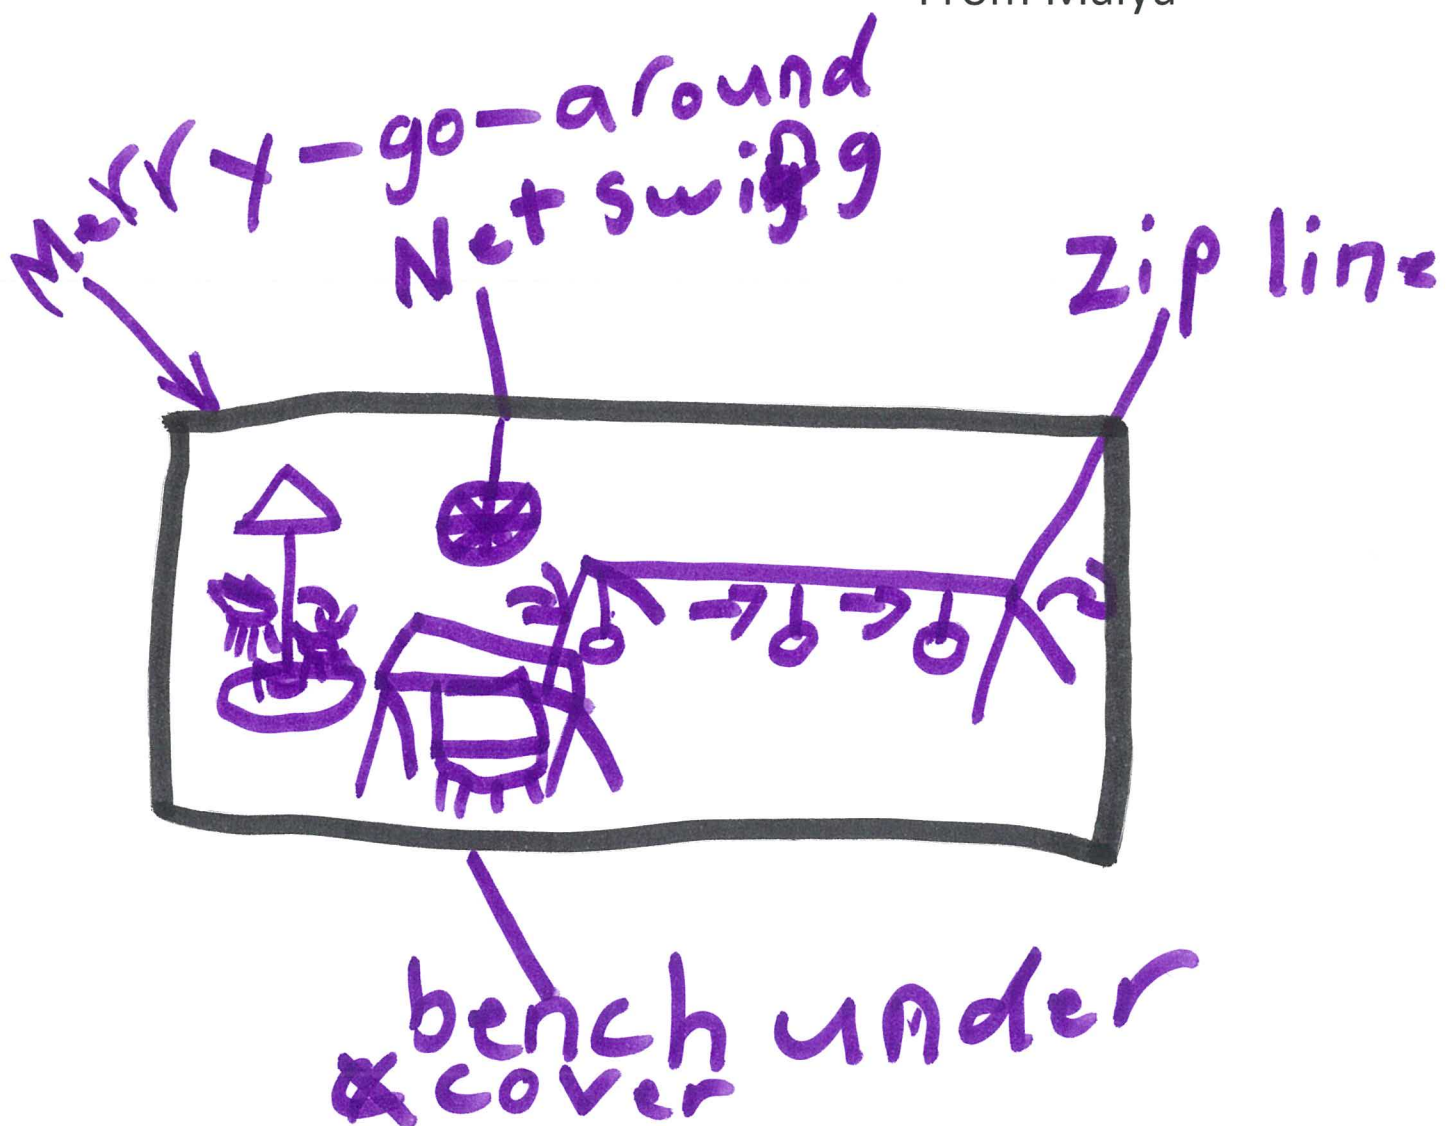

Dear Officer,

At the community park in Woolomin I would like to have a zip line because they are lots of fun.

I want a net swing to be made from rope. I would like a mini road for bikes and scooters and mini cars. A small merry-go-around for kids only would be fun. Also a bench under a cover would be good and a big slide that is quick.

Thank you for building in Woolomin as it will help the kids be active.

Dear officer

At the community in Woolomin I would like to see a skate park that would have drop offs and something that you jump off and something to jump over and also a medium sized bowl to drop into and ramps for people to go down. Also, a Beyblade stadium made out of smooth materials. I would like to see massive slides made out of smooth metal.

I would like to see a bike rack for bikes and scooters when people are finished and a bubbler when someone is thirsty.

If kids are bored they can just go to the new park and have fun. Thank you for your time and hard work to put into this big playground in Woolomin.

Dear Officer,

At the community park in Woolomin, I would like to have a Beyblade stadium made out of very smooth material and a huge zip line across the whole oval and a privacy screen between the houses and the playground.

If you can do this, it is a huge thankyou from me because there is pretty much nothing to do.

Thankyou.

From Joey.

Dear Officer,

At the community park I would like to have a flying fox with a tough material so it doesn't bend.

I would love monkey bars but they need a real tough material so they don't break when someone gets on them.

It would be good to see some shelter trees and a bike rack and some bubblers. A lunch bar with shelters would be good to eat lunch at.

If we had swings and that put some sand or like grass on the ground. A merry -go-round would be good too.

Maybe a little soccer field with goals so people can make teams.

Thank you if you build it. It will be so much fun and help people meet others.

Dear Officer,

At the community park in Woolomin I would like to have a zip line and a big slide and some sprinklers. A water fountain would make the playground cool.

Thank you for helping us build a park in Woolomin as it will help the kids have something to do.
